Motivated Information Technology graduate with First Class (CGPA 6.99) from Lakireddy Bali Reddy College of Engineering. Strong knowledge in Backend Development, Machine Learning, and Computer Networks. Completed an internship and major project, and ready to pursue a Master's program in the UK.

Technical Skills

- **Programming & Frameworks:** C#, .NET MVC, WPF, WinForms, VBScript, Python
- **Web Development:** Angular, JavaScript, HTML, CSS
- **Databases:** MS SQL Server, MS Access
- **Automation & Testing:** Selenium, PyTest, Allure Reports, Custom Automation Frameworks
- **Tools & Version Control:** Git, TortoiseSVN, Coverity, InstallShield
- **Project Management:** Redmine, OneDrive
- **Other Skills:** Code Reviews, Debugging, Deployment Packaging (InstallShield), Troubleshooting

Education

Bachelor of Technology (B.Tech) in Information Technology | 2022 – 2025

Lakireddy Bali Reddy College of Engineering

- **Affiliation:** JNTU Kakinada
- **CGPA:** 6.99 / 10.0
- **Class Awarded:** First Class
- **Year of Completion:** April 2025
- **Medium of Instruction:** English

Diploma in Computer Engineering | 2019 – 2022

Ramakrishna Mission Polytechnic College

- **Percentage:** 93 %
- **Class Awarded:** First Class
- **Year of Completion:** Jul 2022
- **Medium of Instruction:** English

Secondary School Certificate (SSC) | 2018-2019

Ramakrishna Mission High School

- **GPA:** 9.8/10
- **Class Awarded:** First Class
- **Year of Completion:** March 2019

Project Highlights

Industrial / Research Internship | Grade A

- Completed an internship focused on real-world IT applications and research methodologies.
- Gained hands-on experience in software development life cycle (SDLC) and team collaboration.

Smart Watering System using IoT (ESP8266)

- Developed an automated irrigation system using IoT sensors and embedded programming.
- Integrated hardware and software to optimize water usage efficiently.

Web Application Development (Full Stack) | Grade A/A+

- Designed and developed full-stack web applications covering both frontend and backend modules.
- Built secure, responsive, and data-driven applications with a focus on user experience.

Achievements & Strengths

- Delivered **end-to-end .NET development and automation solutions** across multiple Honeywell projects.
- Designed & implemented a **custom automation framework** from scratch, cutting manual testing by 40%+.
- Consistently recognized for **collaboration with technical leads** and **on-time, quality delivery**.
- Ensured transparency and accountability through **Redmine task tracking** and daily reporting.
- Demonstrated **dedication and ownership**, including extended hours to meet **critical project milestones**.

Languages known

Languages: English | Telugu | Tamil | Kannada | Hindi

Hobbies & Interests

- Playing **Cricket, Volleyball, and Badminton** (teamwork & leadership)
- **Photo & Video Editing** (creativity & design)
- **Exploring AI technologies and emerging tools** (continuous learning)
